- Cloud Services (AWS, Azure, Google Cloud)
- Containerization & Orchestration (Docker, Kubernetes)
- Debugging & Troubleshooting
- Performance Optimization

PROFESSIONAL EXPERIENCE

Creative Solutions Agency

Software Developer

08/2021 – present | Texas, USA

Liam Caldwell is a software developer who specializes in creating robust and scalable backend systems. His role involves designing and implementing server-side logic, integrating databases, and ensuring that applications run smoothly. Liam collaborates with front-end developers to build cohesive web applications and ensures that the architecture is efficient and maintainable. He is also responsible for troubleshooting technical issues and optimizing performance, making him a critical part of any development team

EDUCATION

Master of Science (M.S.) in Software Engineering

Stanford University

2014 – 2016

- Certified Kubernetes Administrator (CKA)
- AWS Certified Solutions Architect
- Oracle Certified Professional (OCP)
